Frontend Developer

Kashmir Town Narowal

SUMMARY

As a final-year student at UET, I am a passionate and dedicated frontend web developer with hands-on experience in building dynamic and responsive web applications. I possess strong skills in HTML, CSS, JavaScript, React and Tailwind CSS, alongside expertise in state management using Redux Toolkit and navigation with React Router. I am well-versed in object-oriented programming (OOP) principles and data structures and algorithms (DSA) in C++, which enhances my problem-solving abilities. Additionally, I have experience working with Ant Design and Framer Motion to build visually appealing, functional, and interactive user interfaces. My goal is to contribute to innovative projects and continuously grow as a frontend developer.
